Can you see the sea?

Every 1 km square of the UK, standing on the bare ground with eyes 1.7 m up.
26% of the land has the sea in view within 50 km.

AWS Terrain Tiles (zoom 9); sea: OpenStreetMap via OpenFreeMap. Line of sight with curvature and refraction (k = 0.13), 360 rays to 50 km. Dr Tristan Hotham, maps.tristanhotham.com/sea-view
